- ITSA Team Member

EXPERIENCE

React Native Developer Intern

BRCODER • July 2024 - Sep 2024

Software Developer Intern

Nikqik Technologies • Oct 2024 - Present

PROJECTS

Foodies

Foodies is a platform where you can order your food. This website is built using React, a JavaScript library. I use the Swiggy Live API to display item cards.

Express JS - MongoDB (learning Module for Students)

Developed a comprehensive learning module to teach students the fundamentals of building web applications using Express.js and MongoDB.

Project Management

Developed a comprehensive Project Management System using the MERN stack. It has features like project listing, project search, updating project status, pagination, and a dashboard containing cards to show project counters and a graph to display department-wise projects.
